# A Wilson Heater -

Will Save 40 Per Cent. Of Your Fuel Bill -

The celebrated Hot-Blast Down-Draft creates perfect combustion, the gases and fumes (40 per cent. of the heating power of wood), ordinarily escaping unburned up the chimney in other stoves, are all consumed and turned into heat in the WILSON. The Wilson is the only heater in the world, which actually burns all of the fuel put into it. The WILSON is air-tight, heat can be regulated to any degree, and will hold a fire for 36 hours. What you save on fuel will pay for a WILSON HEATER in one season. Burns Wood

Marse Henry Gives Kentucky Advice | your support

to the Nebraskan.
Louisville, Ky, Oct. 5.—Henry Watterson, in the Courier-Journal, bid Mr. Bryan welcome to Kentucky and gave him some advice to be followed in his

speeches next Monday and Tuesday in the interest of the Democratic state ticket. Mr. Watterson says:

"Mr. Bryan will do well in his Kentucky speeches to omit all reference to government ownership, and to let the initiative and referendum severely alone. The Democrats have troubles of their own, without any special importations from Nebraska. Within this limitations the Courier-Journal welcomes Mr. Bryan heartily.
